MANY DEAD OR INJURED

Day of Terror for Cities and Towns About Mt. Vesuvius.

LAVA STREAMS SUBSIDE

And This is Taken as Making the Situation Much More Reassuring.

MANY OF THE VILLAGES SUFFER

Naples, April 10.—Monday was a day of terror for the cities, towns and country about Mount Vesuvius, confirmed in reports place the number of dead and injured at several hundred, but not many facts can be obtained upon which to base an accurate estimate. At midnight the situation appears more assuring, the lava streams having diminished in volume and in some directions having stopped altogether, while a copious rainfall is cooling the lava where it lies stationary.

Almost equally with the devastation wrought by the lava is the damage done by cinders and ashes, which in large quantities have been carried great distances. This has caused the practical destruction of San Guiseppe, a place of 8,000 inhabitants. All but 200 of the people had fled from San Guiseppe, and these 200 assembled in a church to attend mass.

FOUR HOURS WITHOUT ASSISTANCE

While the priest was performing his sacred office the roof fell in, and about sixty persons were badly injured. These unfortunates were for hours without surgical or medical assistance. The only thing left standing in the church was a statue of St. Anne, the preservation of which the poor, homeless people accepted as a miracle and promise of deliverance from their peril.

At Attajana five churches and ten houses fell under the weight of ashes and cinders which lie four feet deep on the ground. In the fall of the buildings about twelve persons were killed and many were injured. The village is completely deserted by its people. After the evacuation of the place the barracks and prisons fell in.

Somma Vesuvianna is another village which has suffered most severely.

The most of the buildings in the village are of flimsy construction and have flat roofs, and so are but poorly calculated to bear the weight of ashes and cinders that have fallen upon them. Inevitably it will be found that a considerable number of persons have perished by the falling of their homes. Although the eruption of the volcano is less violent than it was twenty-four hours ago, the lava is still falling in great quantities.

Refugees from the destroyed villages are pouring into Naples by the thousands, arriving in every description of conveyance and on foot. The roads are crowded with processions of men and women carrying crosses and crying piteously.

Special railway trains and warships are conveying the homeless people to Naples, Rome and Castellamare, while large numbers of people are fleeing overland in the direction of Caserta. No less than 15,000 refugees have reached Castellamare, where the steamer Princess Mafalda is anchored. This vessel left the Island of Capri with 100 passengers, including many foreigners, on board, but she was unable to reach her destination owing to the stifling clouds of ashes and the fumes of gases from the volcano which enveloped her a mile from the coast.

WERE MANY TOUCHING SCENES.

Touching scenes greeted them along the way. By the King's order there was no attempt to keep the people away from him. The sovereigns visited Santa Anastasia, Cerocia and Somma Vesuvianna, where they were greeted with great enthusiasm.

At a certain point the royal party were struck by a small cyclone of ashes and cinders. The King sent his motor car ahead at full speed and crossed the path of the cyclone in safety.

It was found necessary to continue the journey on foot.

The conditions at Torre Annunziata and Pompeii improved today, owing to the change in the direction taken by the flowing lava.

Early in the day apprehension was felt for the inhabitants of the country in the vicinity of Caserta, a place of about 35,000 inhabitants, in whose direction the lava was then flowing.

NOLA HAS SUFFERED SEVERELY.

The town of Nola, on old place of 15,000 inhabitants, twenty-two miles from Naples, has suffered severely by the fall of ashes coming from the crateral, which were carried by the wind as far as the Adriaic sea.

About 150,000 refugees from the district of Somma Vesuviana have sought shelter here and elsewhere. Four thousand persons are lodged in the Granile barracks in this city.

The stream of lava which had been threatening Torre Annaunziata has remained stationary since Sunday evening, so that the danger that the place would be overwhelmed appears to have passed.

When the last train was leaving Bos cotrecase yesterday a fresh crater opened near the observatory station.

Abolish the Card of Thanks.

A gradual sentiment opposing the card of thanks, which almost invariably appears in local papers on the death of a friend or relative is rapidly becoming appearent. To make a public display of your grateful sentiments to persons who are visiting the sick and burying the dead and have only performed their duty, is at all times bad form and grates harshly on the nerves of a refined and sensitive nature. When people visit afflicted or bereaved families or otherwise render assistance they do so with the kindest of intentions, and are not looking for or expecting a public avowal of gratitude. A sincere and personal expression of thanks is ever so much more effective and impressive and accomplishes far more than a public demonstration in journals.

Trade in Your Own Town.

A right that belongs to every citizen is the privilege of spending his earnings in whatever manner and where he inclines as long as he keeps within the law. No one will dispute the former's claim that he can send his money to any place that he wishes and buy goods he needs wherever he wants to. But there is an economic side of the question that should not be overlooked. The resident of a community should be active in furthering the interests of the place he calls home. He is working contrarily to his own good when he sends his money to the distant city for his supplies he knows can be secured in his home town. The dollar sent away goes out of circulation and ceases to be a factor in the building up of the community from which it is sent.

Where a Big Mistake is Made.

Men who are familiar with fish culture aver that not one per cent of the trout fry turned loose in our streams ever survive one week's liberty. They are so small that a dozen could swim in a teaspoon, and are greedily devoured by all kinds of fish, frogs and snakes, and die by the millions from the colder waters and other causes. It is contended that if one-tenth the number of what are called "fingerlings" could be bred and liberated, that the streams would be far better supplied. A "fingerling" is about two inches long and ready to shirk for himself. The present system of supplying the streams simply keep the hatcheries busy and enables politicians to supply trout fry to favored localities.

Sunday Delays Opening of Trout Season.

Fish Commissioner Meehan has issued the following warning in connection with the opening of the trout season:

"The trout season is fixed by law to open on April 15th. That date this year falls on Sunday. The season will not therefore, open until the next Monday, April 16th. Any one caught fishing will not be prosecuted for fishing on Sunday, but for having in his possession fish caught out of season.

"The penalty for fishing on Sunday is a fine of $25, but the penalty for catching fish out of season is $10 a fish. This warning is issued that there may be no in order misunderstanding between fisherman and employes of the Department of Fisheries."

In Whipping Oriental Rugs.

And just here another point. In having Oriental rugs cleaned never allow them to be beaten on the back. That breaks, or at least weakens the warp and wears out the rug. Always beat the face of the Oriental rug. Washing is also good for them—bringing out the sheen and making them more silky.

A new household remedy said to be of sovereign virtue in cases of internal poisoning of whatever sort has now come to the fore in the shape of powdered charcoal. The antidote must be taken in suspension in water, that is, put into water and stirred while being used.

HUNTINGDON PRESBYTERY!

Spring Session Convened at Bellwood Tuesday Morning.

TWO SESSIONS HELD

Rev. A. F. Walker, of Hollidaysburg, is Moderator, and Revs W. H. Whallon of Altoona, Reading Clerk.

REV. HARNISH MADE OPENING ADDRESS

Bellewood, Pa., April 11th, 1906.—The presbytery of Huntingdon convened here today in the Bellewood church at 11 a. m. The opening sermon was preached by the Rev. Walter K. Harnish of Lemont, from Col ii: 10. Ye are complete in Him. After the sermon the presbytery was constituted with prayer. The roll was made out by Permanent Clerk Rev. H. W. Koehler.

The Rev. A. F. Walker, of the Hollidaysburg seminary, was elected moderator by acclamation and the Rev. W. L. Whallun was elected reading clerk in the same way. Rev. J. H. Mathers, D. D. pastor of the church, made the report for the committee on arrangements. The large hearted hospitality of Dr. Mathers and his people and their friends of other denominations has made it easy for them to provide for every one's comfort. The usual hours of meeting and taking recess were recommended and the recommendation was adopted. The approval of the printed record of the Huntingdon meeting and the minutes of the Bellefonte and Tyrone special meeting occupied considerable time.

The committees on the installation of Rev. R. A. Hunter, at Birmingham; Rev. French McAfee, at Port Royal; Rev. Howard McAfee Robinson, at Milroy; Rev. L. N. Leith, at Winburne; Rev. A. S. Carver, at Glen Richey, and Pine Grove Bethel, reported fulfillment of their duties. The committee on South Altoona and Lakemont reported and later entered into a conference with the committee on presbyterial missions.

The committee on Boardman and Glen Hope churches reported that Lay Evangeliet H. C. Currie has been secured for the work there, which was advancing nicely under his care. The continuance of the committee's work was placed in the hands of the committee on presbyterial missions.

Reports of stated and occasional supplies were heard as to the fulfillment of the work appointed.

Rev. J. H. Mathers read his report as treasurer which showed a deficit of about $200, which the doctor explained as due to extraordinary expense.

The trustees reported that a deed of sale of the lot in Altoona had been executed which was accepted by the Altoona Construction company.

The report of commissioners to synod was heard—remarks being made by Rev. W. M. Hyde, F. H. Hagerty, Hon. J. M. Woods and Rev. A. F. Walker.

A call for the pastoral services of the Rev. J. Allison Platts, pastor of the Central Presbyterian church, Allegheny, from the church of Bellefonte, promising him a salary of $2,000 per annum in regular monthly payments with the use of parsonage and one month's vacation, was read found in order and retained in the hands of the presbytery pending the arrival of Mr. Platte.

The following standing committees were announced by the moderator.

Bills and Overtures—Rev. E. M Bowman, Rev. N. H. G. Fife, D. D., Rev. C. E. Hills, D. D., and James Harris, Hon. J. M. Woods.

Judicial Committee—Rev. W. K. Harnish, Rev. Samuel Moody, Rev. R. P. Miller, H. A. Davis, esq., Samuel W. Barr.

Minutes of Synod—Rev. R. M, Campbell, Rev. G. T. Gunter, Rev. W. E. Brooke, Martin Graffius, H. Peterson.

Finance—A. L. Hench, A. Bowman Weaver, Budd Thompson.

Leave of Absence—Rev. D. E. Hepler, Rev. William Gibb, Elder W. A. McCormick.

EVENING SESSION—7:30

A popular meeting was held in the evening at 7:30. Rev. A. F. Walker presided.

The missionary sermon was preached by Rev. W. E. Brooke, Reedsville, Pa., and was a fine effort.

Rev. L. L. Haughawout spoke on the American Bible society describing its origin and growth. Rev. R. M. Campbell spoke of the "Relation between Missions and the Work of the Bible Society" and Rev. W. H. Schuyler, Ph. D., spoke on "What the American Bible Society Has Done."

The Rev. Joseph C. Kelly spoke on the work among the foreign speaking people in the presbytery in words which told upon all who heard them.

Rev. Frank Novak, the missionary now working among these people at Winburne made the closing address of the evening.

Temperance Increasing

In spite of the asseverations of the total abstainers to the contrary, statistics prove that the whisky drinking habit in this country is on the decline. The preliminary report of the Commissioner of Internal Revenue for the fiscal year, which closed June 30th, shows a decrease in the amount of whisky with drawn from bond as compared with the previous year of 704,040 gallons. No one will say that there has been a decrease in population during that period. The same figures show a corresponding gain in the consumption of beer, the increase being 1,251,407 barrels. The revelation these figures furnish is that people are drinking less spirits containing 5 per cent or less of alcohol.

One does not have to seek very far to find at least one cause for this change. The existing industrial conditions enforce sobriety. When the population of the country was sparse and mostly composed of farmers, the drunkenness of one did not endanger the lives of many. But with the concentration of the great manufacturing industries of the country in mammoth structures, employing thousands of workmen and filled with costly machinery, too much is at stake to permit machinery or motive power to be handled by those whose wits have been befuddled with drink. The same is true of the more than a million men employed on steam and electric railway lines. Thus it has come to pass that sobriety has been enforced by an inexorable demand.

While it is not to be expected that drunkenness will be entirely abolished the tendency is clearly toward its decline, as well as towards the substution of the lighter and less intoxicating beverages for those of a stronger and more dangerous type.—Philadelphia Bulletin.

Resolutions of Regret.

At the Fourth Quarterly Conference of the Bellefonte Methodist Episcopal church the following resolutions were adopted.

WHEREAS, In the Providence of God it is deemed expedient that our beloved pastor and friend, the Rev. John A. Woods Jr., should sever his relation with the Bellefonte station and the Central Penna Conference of the Methodist Episcopal church, and

WHEREAS, The three years in which we have been associated together as pastor and people, have been to us most pleasant and profitable years, and,

WHEREAS, it is our desire to bear testimony to his high christian character, his ability and efficiency as a minister of the Gospel of the blessed Christ and our esteem and regard for him as a friend and brother.

Therefore Resolved, That we the members of the Quarterly Conference of the Bellefonte Methodist Episcopal church, express our sincere regret that this most pleasant and happy pastorate is so soon to terminate, and our prayer to our Heavenly father is that he may ever have him and his, in His sacred keeping and that His richest blessing may through life be theirs.

Resolved further, that we commend him to those to whom he may in the future be called to break the bread of life, as a most efficient and faithful christian minister, a beloved pastor and a true friend.

Resolved further, that these resolutions be engrossed and a copy over our signature be presented to him as a mark of our high regard and esteem.

Signed by the official board.

Death of Arthur Norris.

Arthur Norris one of Centre county's most prosperous farmers died Friday morning at 8 o'clock at his home in Frimore after an illness of two weeks with pneumonia.

The deceased was about 38 years old and was the son of Mr. and Mrs. Henry Norris. He is survived by a wife and seven small children who have the sympathy of the entire community in their sad bereavement.

THE TOMB OF GRANT

May Be Beautified By The Erection Of Park

THE BUCKWHEAT FIELD

Action Taken to Prevent the Building Thereon of Several Skyscrapers —Will Spend Two and Half Million Dollars

OFFICER RETURNS IN DISGRACE.

New York, April 7.—A request that Buckwheat field the scene of a Revolutionary conflict and now the tract of ground surrounding Grant's tomb on the Hudson, be made into a public park was submitted by General Horace Porter and others to the City Board of Estimate.

"The tomb of General Grant," said General Porter, "is threatened with being surrounded by skyscraping buildings if this land be left to the contractors. We need this tomb preserved in its majesty as we need all other lessons in patriotism that can be given to the thousands of immigrants who arrive here monthly. This land is the resting place of many patriots who suffered in the bloody Buckwheat field battle. The engagement of that day was fought under the eye of Washington, and served to restore confidence to our soldiers.

It was proposed to spend $2 500,000 in acquiring the land for this park. The board appointed a committee to investigate the project. Grant's tomb stands on an eminence which now commands a view for miles up and down the Hudson river.

HE RETURNS IN DISGRACE.

San Francisco, April 7.—The transport Sheridan which arrived from Manila Thursday night had on board besides a large passenger list and a battalion of the Tenth Infantry, four general prisoners for the military prisons, among them being Sidney S. Burbank, formerly a lieutenant in the Sixth Infantry. Lieutenant Burbank was court-martialed and sentenced to be dismissed from the service of the army and to serve fifteen months in the military prison at Fort Leavenworth, Kansas, for conduct unbecoming an officer and a gentleman. He was married to a Filipino woman and after reaching the mainland renounced her and reported to the War Department that he was a single man.

THE STATE CONSTABULARY.

Wilkes-Barre, April 7th.—Warrants were issued in Pittston Friday afternoon for the arrest of four members of the state constabulary who are stationed at Wyoming, six miles from here. The prosecutors are board members Melno and Walsh, of the United Mine Workers' organization.

It is claimed that during a demonstration made on Wednesday last at the Fernwood washery, near Pittson, these troops entered the homes of some mine worker and secured several guns, which they took with them.

The hearing took place this morning for the purpose of ascertaining what powers the constabulary have in making such raids.

Death of Samuel Hoover.

Samuel Hoover, well known in Bellefonte, died at his home at Hannah at 9 o'clock Saturday night, of rheumatism, from which he had suffered for five weeks. He was aged 68 years and had been a resident of Hannah, Centre county, for about fifty years.

He was a farmer by occupation. The deceased was a trustee of the Hannah Methodist church, the ground for which was donated by him. He is survived by his wife and the following children: William T., Sarah and Allen, at home; Mrs. H. F. Cheney, of Port Matilda; and Mrs. D. O. Downing, of Vail. Three brothers also survive him. Philip, who lives in the west; John Hoover, of Bellwood; and Alexander Hoover, of Fillmore. Rev. J. B. Durkee conducted the funeral services at his late home Tuesday morning and the body was taken to Tyrone, on the afternoon train for interment in Tyrone cemetery.

—The ladies aid society of the Methodist church will give a supper in the lecture room of the church Thursday evening April 26th.

Poultry Column.

The poultry interest is an increasing one in this country and there is room for its further development. Consumers are slowly coming to the conviction that eggs are an economical, as well as a wholesome food, and the market for early spring chickens has never been fully supplied. In this matter of chicken raising, it is the early chick that catches the corn. In this, as in every other business, there is a know how, and as in these sunny spring days, the hens are everywhere cackling for joy over their new-laid eggs. Of course to secure broilers for June and July the chicks must be hatched in March and April and must be pressed straight forward until they reach the gridiron. When first hatched, a chick needs no other food for a day or two than that which nature has provided for him and to tempt him to eat meal at this early period is as irrational as giving an infant a piece of sausage. The mother hen understands this, and never leads her brood out on a foraging expedition until they have rested a day or two under her wings. Hard boiled eggs chopped with old wheat bread will give them a better start in life, than any other food. After a week's diet of this kind, Indian meal with wheat middlings mixed with milk can be gradually substituted Meal alone is too fattening food and does not furnish material enough for bones and feathers. Too much value cannot be placed on milk for developing chicks. Milk contains everything essential to provide the growth of muscles, bones, feathers and every part of the animal; boiled potatoes are also excellent for them. Like all other animals, chickens like a variety of food and this taste should be gratified.

Make a hen comfortable and she will lay plenty of eggs. How then are we to make the hen comfortable: In winter there must be warmth as well as light, with plenty of ventilation. In no condition permit a crowded condition of the fowls. Give them plenty of freedom, cleanliness and fresh air. In summer they must be kept cool, build movable sheds and remove them as the seasons dictate. To carry out the true spirit of a successful hennery the keeper must be on good terms with his feathered family and permit of no strange intrusions to frighten the fowls, for no frightened hens will lay. Give plenty of fresh water and wholesome food. In a word—with this treatment your hens will be happy and a happy, singing hen will yield an abundance of eggs

Avoid crowding your birds in their night quarters. They are growing rapidly and if compelled to occupy a close or limited coop, in proportion to their numbers, they will suffer at night injure or destroy each other in their uneasy efforts when they go to roost or shelter.

A warm, light, clean and dry house, in which the birds may roost and lay their eggs and take shelter in cold or windy weather, is indispensable to success in poultry breeding.

Hens fed on clear, sound grain and kept in clear grass, give much finer-flavored eggs than those that have access to stable and manure heaps and eat all kinds of filthy food. The richer the food the higher the color of eggs. Wheat and corn give eggs the best color, while feeding on buck-wheat makes them colorless, rendering them unfit for some confectionery purposes.

Carbolic acid, properly applied, is a useful drug in the poultry yard. The offensive and unwholesome odors of the poultry quarters, arising from the exhalations of the fermentation of the droppings, may be easily and effectually removed by the use of a solution of carbolic acid. Besides, the odors, which are simply disagreeable and unwholesome, other and more dangerous gases of a miasmatic or poisonous character are often generated in quarters where large numbers of fowls are kept. These infectious miasms are the cause of destructive epidemic diseases. Carbolic acid will destroy these gases and prevent loss from the disease they produce. This acid in solution will destroy the pest of lice as well as the "mites" or spiders which are so annoying and detrimental to the life of a chicken.

Stick Driven Through His Heart.

Samuel Nogel, a young man aged 21 years, met with a tragic death at Kulp's saw mill at Lewisburg, where he was employed, a few minutes before noon yesterday. He was changing a belt, using a stick for the purpose. It was in some manner caught by the belt and driven with great force into the unfortunate man's body, penetrating his heart and producing instant death.

A Practical Sermon on the Horses's Foot.

One or more sermons have been written on most every subject, and I am prompted to write this one on the most abused of of all man's friends among the dumb animals, in the hope that some one may read it to his own profit and to the comfort of his faithful horse.

When I see so many poor brutes go pinching along, and as soon as they stop, throw one foot out in front of them (an indication of severe pain) I would if I could transform his inhuman master in his place for a while.

You know the old saying, "No foot, no horse." No part of a horse is as much neglected as his foot, which results in two kinds of lameness--one called "Navicular" troubles, and the other "Corns." The last is occasioned by leaving the shoe on too long. I have heard many persons say: "Oh; that shoe is on tight; what's the use of having him shod?" Right here is where they are penny wise and pound foolish. The shell or wall of the foot continues to grow, but the shoe does not, and in consequence thereof, the whole weight of the horse rests upon the tender part of the foot instead of the shell of the hoof as nature intended. What is the result? A bruised heel or corn and a lame horse; and he will continue to be lame unless you take prompt measures to give him relief, and it takes time and very good attention if you don't want a permanently lame horse. Right here is where I say; You are penny wise and pound foolish. Don't be afraid to have your horse's shoes removed often; it costs but 20 cents, as the trouble is always in the front feet. And if you find he is getting a corn, have the blacksmith spring the shoe from off the heels, thus relieving the weight of the horse from off the tender parts and keep his feet soft.

The Navicular trouble comes principally from the horses hoof contracting at the heels, allowing the walls of the foot to squeeze in on the delicate parts causing him intense pain and making him go what is commonly called "short in front." Having pain in both feet, he does not show lame in one more than in the other; this is caused mainly from the ignorance of the owner and the carelessness of the hostler.

I can point today to some of the most valuable horses in Chambersburg that have been rendered practically worthless by the neglect of their feet. This applies mostly to riding and driving horses. In the winter when they are not in use, for months at a time, they are left stand in a dry stall with no nourishment for the foot which grows half again as long as it should be, What is the result? The foot becomes hard and dry causing it to draw together at the heel or as it is commonly called, contracting, and soon the horse comes out sore and has lost in value ten times what it would have cost to give his feet some attention.

One of the greatest things for a horse's foot is good cold water. In the cities where valuable horses are kept, they are never put away without first washing the foot inside and out, thus allowing them to see if anything is in the foot, and the water will toughen the hoof and keep it in a healthy condition; but this is too much trouble for the ordinary hostler. The next best thing is to have your horse shod often, getting the smith to spring the heel open and then pack his foot with some good hoof packing; or, if you can't afford this, the common flax seed meal mixed to the consistency of putty and packed in the hoof, after thoroughly cleansing it, will keep the foot soft and healthy. Do this over Sunday when your horse is off duty, and I venture to say your animal will last much longer, be a source of pleasure to you, and will save the poor faithful brute, who cannot talk for himself, many day of pain and discomfort.

The faithful animal not only takes you pleasure driving but helps to make money for you, and is one of your most valuable assets. Most owners think that all they have to do is to throw him in a little feed, and do not give him as much attention as they would a piece of machinery about the place which had no feeling at all. Take care of your horse, and the horse will take care of you.

What to Teach Your Son.

Teach him to be true to his word and friends.

To respect religion for its own sake.

To face all difficulties with courage and cheerfulness.

To form no friendships that can bring him into degrading associations.

To respect other people's convictions.

To reverence womanhood.

To live a clean life in thought and word, as well as in deed.

Teach him that true manliness always commands success.

That to command he must first learn to obey.

That there can be no compromise between honesty and dishonesty.

That the virtues of punctuality and politeness are excellent things to cultivate.

That a gentleman is just what the word implies—and man who is gentle in his dealings with the opinions, feelings and weaknesses of other people.

A New Industry for Bellefonte

Bellefonte has a new industry in the shape of a plant for manufacturing artificial stone. The Haupt Bros., the well known makers of concrete pavements, reservoirs, etc, are the owners of the plant and have installed it on the property of G. E. Haupt on north Thomas street. Samples of the stone they make have been on exhibition in front of the Potter-Hoy hardware store for several days past and have attracted wide attention. The stone are in different colors, some of them very pretty, and as hard as granite.

In a great many of the towns in this state you will see houses and business blocks built of these same kind of stone and they make a handsome and substantial building. It is the intention of Edward Haupt to erect a double house this summer on their vacant lot on Thomas street, built of these artificial stone.

G. Edward and Theodore Haupt, the members of the firm of Haupt Bros., are to be commended for establishing this enterprise here and we hope it may grow and flourish like the proverbial green bay tree.

Had 28 Operations in 15 Years.

Baltimore, April 11—Howard Wolf, aged 21 years, of this city, has the remarkable record of having undergone 28 surgical operations in 15 years. He has been a sufferer from osteomyelitis, a rare disease of the bone marrow. The Johns Hopkins surgeons have removed affected portions from the right shoulder and the femur of the right thigh. He is able to use his limbs notwithstanding the many operations, and now believes he is cured. After every operation he had to remain from one to four months in the hospital.

Chronic Bronchitis Cured.

"For ten years I had chronic bronchitis so that at times I could not speak above a whisper," writes Mr. Joseph Coffman, of Montmorenci, Ind. "I tried all remedies available, but with no success Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." For sale by C. M. Parrish.

OUR NEW INDUSTRY.

A Vertible Bee Hive, Which Bellefonte Can be Proud of.

One of the most flourishing and growing industries in Central Pennsylvania is the Yeager Manufacturing Co., which is located in Reynold's Mill Building, occupying the second, third and fourth floors. Most of the people of Bellefonte are ignorant of its existence in their very midst. This factory employes about forty men and is putting out more goods daily than any other factory proportionate with its size in this part of the state.

They manufacture a standard line of novelties, including the famous Yeager Swings, mission tabourettes and doll furniture, camp stools, slaw cutters, bread boards, salt boxes, and a newly invented mission davenport and convertible swing. The last named, would make a beautiful piece of furniture for a library and would also come in handy as a porch bench. It is one of the most attractive article on their list.

The factory is under the direct supervision of Morris Yeager, who has had great experience in this line of work and is the inventor of the well known Yeager Swing. Morris is a hustler and is putting through as much work as the capacity of his factory will allow.

The business is growing so that it is necessary to have ten men representing this firm through the United States during the entire year and every day large consignments of their products are being shipped to all parts of our continent. They have on hand now an order for 40,000 camp stools which is to be filled in about one month.

To The General Public.

For the benefit of the commonwealth, as well as for the protection of the animals, we present below a clause relative to the in regard to the same;

EXTRACT FROM SEC. 1, ACT MARCH 29, 1869.

"Any person who shall, within this commonwealth, wantonly or cruelly illtreat, overload, beat or otherwise abuse any animal, whether belonging to himself or otherwise, shall be deemed guilty of a misdemeanor, and on being convicted thereof before any Alderman or Magistrate shall be finded by the said Alderman or Magistrate for the first offense in a sum not less than $10, nor more than $20; and for the second and every subsequent offense in a sum not less than $20, nor more than $50, one-half to be paid to the informer."

By order of the Society for the Prevention of Cruelty to Animals.

MRS. H. T. KURTZ, Local Secretary.

"College Chums."

The W. C. T. U. desire to thank most heartily the young ladies and gentlemen, the girls and boy one and all, newspapers of the town and the generous public, who patronized the entertainment given under the capable and gentlemanly management of Messrs Vance and Bingham, for the Petrikin Hall fund. The general opinion is unanimous in pronouncing the whole program one of the best ever given by home talent. Mr. Vance and Mr. Bingham say they have never rehearsed a more pleasant congenial set of young people. Mr. Bingham who trained the company especially commended the young men for the entire absence of cigarette smoking while in the Hall, which was certainly complimentary to the young ladies who no doubt appreciate the respect showe them.

Woes of the Voter.

The following paraphrase may be a little sacrilegious but it hits the point just the same: The politician is my shepard. I shall not want for anything during his campaign. He lesdth me into the saloon for my vote's sake. He filleth my pocket with good cigars and my beer mug runneth over. He inquireth concerning my family even unto the forth generation. Yea, though I walk through the rain and mud to vote for him and shout myself hoarse at the election, he straightway forgetteth me, although I meet him at his own house, he knoweth me not. Surely the wool hath been pulled over my eyes all the days of my life. And it will dwell in the house of the landlord forever.

FOLEY'S HONEY AND TAR
for children; safe, sure. No opiates

How hard a mother has to coax before she can get her child to take its first step. It is just about as hard to induce a convalid, especially one suffering infirmed incially one with weakness of the lungs, to

take the first step to health. There is a lack of confidence, and perhaps a crushing experience of a former failure which depresses and discourages the sufferer.

In spite of doubts and fears you will take the first step to health when you take the first dose of Dr. Pierce's Golden Medical Discovery. It never fails to help. In ninety-eight cases out of one hundred it never fails to cure. Never mind about the symptoms. Obstinate cough, bleeding of the lungs, spitting of blood, emaciation, night-sweats, conditions which if neglected or unskillfully treated terminate in consumption, have all been perfectly and permanently cured by "Golden Medical Discovery."

"I am thankful to say that Dr. Pierce's Golden Medical Discovery cured me of consumption," writes Mrs. Mattie L. Denton, of Morganton, N. C. "My health had been bad and for several months before I began the use of your medicine I had symptoms of consumption. Had night-sweats, a bad cough, loss of appetite and a great loss of flesh. There were other symptoms of disease that disappeared by the use of the medicine. By the time I used one bottle of 'Golden Medical Discovery' I began to regain my appetite and after using two and a half bottles my cough was cured, I could eat heartily and all symptoms of consumption had disappeared. Took seven bottles of 'Golden Medical Discovery' and one of the 'Favorite Prescription.' Am very thankful I received so much benefit. I believe I would have been dead if I had waited and not taken Dr. Pierce's Golden Medical Discovery."

Sick persons are invited to consult Dr. R. V. Pierce, by letter, absolutely without fee or charge. Every letter is regarded as sacredly confidential. Each answer is mailed in a plain envelope. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

—Foley's Honey and Tar contains no opiates, and will not constipate like nearly all other cough medicines. Refuse substitutes. For sale by C. M. Parrish.

THE TAIL OF A COMET.

Its Ever Changing Mass and Why It Flees From the Sun.

The tail of a comet is not formed of the same particles which composed it yesterday or even an hour or a moment ago. It is constantly being renewed at the expense of the nucleus. As the long stream of black smoke from the neighboring factory or mill is being continually renewed by fresh particles of carbon released by the combustion going on in the furnace below, so is the wonderful luminous train of cometary bodies being constantly replenished by particles flying from or rather driven from the nucleus by the intense heat of the sun.

Then, again, how infinitely small and how intensely luminous must these particles that go to make up the tail of a comet be! This thought is suggested by the fact that it has been proved that in some cases the nucleus of comets which are only a few hundred miles in diameter will have enormous fanlike tails stretching across space for a distance exceeding 200,000,000 miles and having a bulk exceeding that of the sun by more than 10,000 times! Professor E. E. Barnard beautifully illustrates the formation of a comet's tail by "supposing" thus: "Suppose, for example, that the nucleus of a comet is composed of ice. Then suppose the heat of the sun to be so intense as to rapidly melt that portion of the ice globe exposed to the action of its rays, which are strong enough to immediately convert it into vapor, which ascends toward the sun.

"Imagine now a fierce wind blowing out from the sun, causing the vapor which meets it to be whirled out into space behind the comet. This will clearly illustrate the theory of the formation of a comet's tail, only that the nucleus of the comet is not ice and the vapor is not water vapor, neither is the force which drives it away from the sun a fierce wind."

The unknown force hinted at by the astronomer above quoted readily explains why a comet's tail, as a rule, points in an opposite direction to the sun. The Russian astronomer Bredichen distinguishes three different types of cometary tails—those composed of particles having the specific gravity of hydrogen, those having the specific gravity of hydrocarbon gas and a third class having all the peculiarities of an equal mixture of hydrogen and iron vapor.

A Divided Sentiment.

Little Agnes is twelve years old. She is a poetess. She has, maybe, a sense of humor and, positively, she did not like her stepmother. On the latter's birthday the youthful rhymer put forth all her powers to please the lady who had usurped her own mother's place. The quatrain ran as follows:

I thank you for your kindness,
I thank you for your love
And hope God will reward you
By taking you above.

Her stepmother hardly knew whether this was to be taken prematurely or not. She supposed not.—New York Press.

Battles In the Sea.

Fights between sharks and porpoises are said to be common in the waters around the Florida keys, and the fishermen thereabout declare that the porpoise always wins and sends the shark, which usually begins the fight, scurrying away. The shark has to turn on its side to bite, and the nimble porpoise easily keeps out of reach of its snapping jaws and then jumps in and deals the shark tremendous slaps with its tail.

Royal Gamblers.

The fascination which games of chance have exercised over gentle and simple is well illustrated in the description by Stow of the entertainment given by Henry Picard, mayor of London, in 1357, when the kings of France and Scotland, being prisoners in England, and the king of Cyprus on a visit to Edward III., the mayor "kept his hall against all comers that were willing to play at dice and hazard. The Lady Margaret, his wife, did keepe her chamber to the same intent." The mayor, having won 50 marks from the king of Cyprus, returned him the money, saying, "My lord and king, be not aggrieved, for I covet not your gold, but your play."—Chambers' Journal.

To Run Exhibits by Power.

A project to lessen the expense of generating power to run the exhibits at the electrical show in Chicago is under consideration, says a Chicago dispatch. The plan is to utilize the electricity latent in 257 cats. Experts interested in the show say the scheme is feasible.

He Made Sure.

A story is told of the Sudan railway which shows patient literalness. To an official there came the telegram from an outlying station: "Station master has died. Shall I bury him?" The reply was sent: "Yes; bury station master, but please make sure he is really dead before you do so." In due time back came the message: "Have buried station master. Made sure he was dead by hitting him twice on the head with a fish plate." There was perfect assurance that there had been no premature burial.

The Flying Lizard of Java.

The curious little animals known as flying lizards (Draco volans) are only found in Java, and their strange appearance is supposed to have been the origin of the dragon of the mediaeval eastern imagination. The reptile is like an ordinary lizard, but is provided with folds of extensible skin which are spread out by the long ribs and enable the animal to glide through the air from tree to tree in pursuit of the insects on which it preys. When lying prone on the mottled surface of a bough, it is an excellent example of "protective resemblance," as it is most difficult to be seen unless it moves.

SIBERIAN HOSPITALITY.

A Charming Visit, With a Somewhat Terrifying Climax.

Detained at the Siberian village of Krivochokovo, M. Jules Legras remembered that he had a letter to a notable of the place and hastened to present it. M. Gautier in his book on Russia describes in M. Legras' own words the cordial hospitality with which he was received and also tells of the difficulty which concluded his charming visit.

"They had detained me till 10 o'clock in the evening," he writes, "by repeating, 'Why are you in a hurry?' and I was on the point of making my departure when I heard the mistress of the house say in a low voice to her husband, 'Shall I send for the carriage?' To which he replied, 'No.' At this word a shiver passed over me. Doubtless this host, who had made me send away the coachman, was unaware of what his refusal meant, else he would have said to me, 'Here is a sofa; sleep here.'

"My situation was perilous, but what could I do? At the end of a few moments I rose to take my leave, and, having asked if I could get a cab, was met with the reply that at this hour none could be obtained.

"Krivochokovo is a village whose population constitutes the very flotsam and jetsam of Siberian civilization. The village has neither streets nor lights nor police. It is considered a cutthroat spot, where honest people shut themselves tight at night.

"I had neither stick nor revolver, and I had on me a large sum of money. Finally, I was ignorant of the exact position of my inn, situated over a mile away. First of all, dogs threw themselves upon me. I shook them off and started as best I could.

"The night was inky black. Amid the irregular clusters of houses there was no regular street by which to guide myself. As I hesitated I heard a 'Who is that?' It was a watchman of a pile of wood who hailed me. He directed me, and, giving me a large branch that would do as a stick, he said: 'You are wrong, barine, to go about this way without a revolver. The place is not safe. May God protect you!'

"As I approached another cluster of houses a watchman sounded his rattle menacingly and dogs flew at me savagely. When this watchman approached I induced him to accompany me. He informed me that the evening before a traveler who was staying at my hotel, having started early to catch a train, had been assassinated about ten paces from there. Finally we reached the inn. It took a long time to make them open the door, but I finally got inside and reached my room, trembling with fever and fatigue, and fell down helplessly, only conscious of having passed an hour and a half whose remembrance will remain with me long. As for my so amiable host, whose hospitality might have cost me my life, he will doubtless never know of this adventure."

The Shaving Brush.

It is likely that the best shaving brush ever made sheds more or less hairs. To prevent this take an elastic band, neither too heavy nor too light; cut it once (not in two), and, holding one end firmly on the handle, wind the rubber around the bristles as close up to the handle as you can, stretching taut as you wind. When you come to the end tie a simple flat knot (not a granny knot) or else lose the end. By careful winding a very neat job can be done, and the bristles can be worn down to the socket without losing a hair.

A Work of Art.

Miss Knox—There goes Bess Mugley. Miss Bright—Yes, she played the part of the heroine in the private theatricals at the church. Miss Knox—Gracious! Did she have the face to play the heroine? Miss Bright—No, but the costumer fixed one up for her.—Philadelphia Press.

Hawaiian Huckleberry.

On the island of Hawaii are great thickets of the ohelo, or Hawaiian huckleberry (Vaccinium reticulatum), which the natives consider sacred to Pele, the goddess who is supposed to preside over the famous crater of Kilauea, and which, together with white pigs and chickens, are thrown by them into the boiling red lake during an eruption to appease the wrath of the aggressive dame and thus cause the rivers of lava to cease flowing on their destructive course. These berries grow in clusters on low bushes right on the very brink of the brimstone beds and are so numerous that a bushel may be easily gathered in half an hour. In appearance they somewhat resemble a cranberry, and the flavor is pleasantly suggestive of grapes.

Cast Iron.

Cast iron is extended the five thousand five hundredth part of its length for every ton of direct strain per square inch of its section. Its elasticity is fully excited when extended the one-thousandth part, and the limit of its elasticity is estimated to be found at the time when it is extended the one thousand two hundredth part of its length. The tensile strength of the longest piece of cast iron ever tested was 45,970 pounds to the square inch.

He Wasn't Acrobatic.

Miss Prue Dent—Papa says you are improvident and that he will never consent to my marrying a man that is unable to make both ends meet. Orrville Hardupp—Well, I'm afraid I shall never be able to do so. I'm no contortionist. Good evening.—Pittsburg Dispatch.

The wise man is he who asks a great deal of advice and takes a very little of it.

THE AGILE TIGER.

He Is "Shod With Silence" and Is as Quick as Lightning.

Most wild animals are specialists—that is to say, they are highly developed in one particular direction. The tiger is great as a stalker. His feet seem to be "shod with silence." R. H. Elliot, for many years a resident of India, cited an experience of one of his neighbors illustrative of this point.

He had been much annoyed by tigers and at last tied a bullock out in a clearing and took up his own position in a tree to wait till the tiger should come after the bait. The ground was covered with dried leaves, which in hot weather are so brittle that even the walking of a bird over them can be heard for a good distance.

In no very long time a large tiger slipped out of the forest and slowly edged toward the bullock. His method was so elaborate and careful that the man who saw it used to declare that it would have been worth 1,000 rupees to any young sportsman to have witnessed it.

So carefully did he put down each paw and so gradually did he crush the leaves under it that not a sound was to be heard. Between him and the bullock was a stump about four feet high, with long projecting surface roots. This, plainly, the tiger looked upon as a godsend.

He got upon one of the roots, balanced himself carefully and so was able to walk quickly and silently as far as the stump. He approached so gradually and noiselessly and his color against the brown leaves was so invisible that he was close upon the bullock before he was perceived.

Then instantly the bullock charged. The tiger eluded him and in a moment more had his paws on the bullock's neck ready to drag him down. Then, like a flash, he caught sight of the rope by which the bullock was tied and turned and sprang into the forest, all so quickly that the man in the tree had no opportunity to fire.

SIZE OF A THUNDERBOLT.

Geologists Have a System by Which Such Measures Are Taken.

"Did you ever see the diameter of a lightning flash measured?" asked a geologist. "Well, here is the case which once inclosed a flash of lightning, fitted it exactly, so that you can see how big it was. This is called a 'fulgarite,' or 'lightning hole,' and the material it is made of is glass.

"When a bolt of lightning strikes a bed of sand it plunges downward into the sand for a distance less or greater, transforming simultaneously into glass the silica in the material through which it passes. Thus by its great heat it forms a glass tube of precisely its own size.

"Now and then such a tube, known as a fulgarite, is found and dug up. Fulgarites have been followed into the sand by excavations for nearly thirty feet. They vary in interior diameter from the size of a quill to three inches or more, according to the 'bore' of the flash. But fulgarites are not produced alone in sand. They are found also in solid rock, though very naturally of slight depth, and frequently existing as a thin, glassy covering on the surface.

"Such fulgarites occur in astonishing abundance on the summit of Little Ararat, in Armenia. The rock is so soft and porous that blocks a foot long can be obtained, perforated in all directions by little tubes filled with bottle green glass formed from the fused rock.

"Some wonderful fulgarites were found by Humboldt on the high Nevada de Toluca, in Mexico. Masses of the rock were covered with a thin layer of green glass. Its peculiar shimmer in the sun led Humboldt to ascend the precipitous peak at the risk of his life."

It Won For Sardou.

It is a singular fact that the famous French dramatist Sardou owed his first success on the boards to his excellent handwriting. He had sent in his often rejected play, "La Taverne des Etudiants," to the Odeon management for consideration, and the manuscript was thrown, with some others, upon a table. One day at rehearsal the charming actress Mlle. Berengere was attracted by the handwriting and took up the manuscript, crying, "Oh, what an exquisite hand!" She read the play and recommended it so strongly to the directors that they were induced to read it and then accept it. At the time Sardou was starving. He had gone through seven long years of terrible hardship and privation.

Hops In England.

The English were taught the uses of hops by a native Artois, who introduced them into England in 1524. They met with some hostility, for physicians represented them as unwholesome, and parliament was petitioned against them as a "wicked weed." In 1528 their use was prohibited under severe penalties. Henry VIII. appears to have been prejudiced against hops, for in a manuscript, dated Eltham, January, 1530, occurs an injunction to his brewer "not to put hops or brimstone" into the ale.

PRESCRIPTION FOR INDIGESTION.

How Scores of Bellefonte People Obtain Relief.

If it really were known how many Bellefonte residents have been cured of stomach trouble and digestion by Dr. Davis' Prescription, it might perhaps surprise you, but what is more surprising is the fact that any one will continue to suffer with heart burn, sour stomach, water brash, sick headache, mental depression, nausea, and other distressing symptoms of dyspepsia when there is a remedy of such great merit that it almost invariably benefits every one that tries it. Pepsicola Tablets are the prescription of Dr. Davis, a physician who devoted a lifetime to the study of stomach trouble, and if your food does not agree with you, if you are tired, nervous, worn out, low spirited and your energy at low par, it may interest you to know that no other prescription in this world has a greater record of cures behind it, and there is nothing more certain to give you relief. Mr. C. M. Parrish will tell you that although Pepsikola is sold on the fairest kind of a money back plan, not more than two in one hundred ever come back for their money. This is the surest evidence of its marvelous curative properties, but so that there may not be the least doubt in your mind as to what Pepsikola will do for you, Mr. Parrish will hand your quarter right back to you if you should fail to receive the benefit you look for.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weaken, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

Digests What You Eat

Dollar bottle holds 2½ times as much as the trial, or 50 cent size.

Read!

In the New York Family Story Paper Charlotte May Kingsley's great romance An American Girl; or Hearts and Coronets. The subject deals with the one brought into prominence only lately by Andrew Carnegie's remark that he would not care to have a worthless British Duke marry into his family. Mrs. Kingsley depicts the American Girl true to life with all of a real American girl's abhorrence of being bartered for a title. This splendid serial begins in No. 1654 of The New York Family Story Paper. To enable all to read this fascinating romance we will send you a copy of the paper, containing the opening instalment, free of all charge. Send your name and address on a postal card to The New York Family Story Paper, 24-26 Vandewater street, New York city.

THE WOMAN WHO COUGHED.

Catarrh had nearly ruined me. It had eaten away the partition in my nose; produced Asthma, Bronchitis, Rheumatism; ruined my stomach; in fact, gone all through my system. Then Grip finished me. I was a wreck; took cold at nothing; and coughed day and night. The doctors dosed me with opium and quinine. No good. Cough "cures"? Bah! Then Brazilian Balm renovated me. Killed every germ. Took 10 $1.00 bottles. Now I'm like a girl of 18.

A GENEROUS CRITIC.

Story of John Oxenford, a Once Famous London Character.

John Oxenford was for years the leading theatrical critic of London. Mr. Oxenford was troubled with a serious bronchial affection, which occasionally disturbed the audience, for he refused to give up his beloved theater, although desperately ill. A certain rising young actor was very anxious to obtain Oxenford's valuable opinion on his work, and the tender hearted old gentleman literally left his bed and came down to the theater on a bitter cold night to do a good action to a clever youngster. In the middle of one of the actor's finest scenes on came the cough from the Oxenford box. It continued so long that it unnerved the actor, and he came to a dead stop. To the surprise of everybody he advanced to the front and said, "Ladies and gentlemen, I am sorry to say that unless the old gentleman with the irritating cough retires temporarily from the theater I really cannot go on. I forget everything. It is painful so to address you, but I am powerless in the matter and place myself in your hands."

The disturbance at once ceased, and the box was empty. When the curtain fell a friend rushed around and, breathless, said to the distressed actor: "Do you know what you have done? Do you know who it was that you turned out of the box?" "I neither know nor care," was the reply. "Why, it was John Oxenford!" The actor was paralyzed, but he got his good notice all the same. The veteran critic went home coughing to praise the young actor who had turned him out.

JUDGING DOGS.

The Rules by Which the Different Points Are Valued.

The average man is greatly puzzled to find one dog awarded a first prize and another, which to him appears to be quite as fine a specimen, awarded no prize at all. A man who knows the relative values of the different points in all breeds of dogs is a veritable walking encyclopedia.

Generally speaking, the best dog is one which comes nearest the standard of requirements for its own particular breed, about 25 per cent of the points being usually awarded for fine head proportions, an equal number for legs and feet, a similar number for body and color and the rest for symmetry.

In the Dalmatian, for instance, thirty points are given for color and markings, while head, eyes and ears have only fifteen; the bulldog, on the other hand, has forty-five for head and ears, while coat and color amount to but five points; the collie has twenty-five for coat, color being immaterial, and twenty-five for head and ears.

The St. Bernard has forty for head and ears and five each for coat and color. The Pomeranian has but fifteen for head and ears, forty-five points going for coat, color and tail, with fifteen for appearance. It may be set down as governing in all breeds of dogs that whatever is the typical feature of that breed is the feature upon which stress is laid in the allotment of points.

Too Much Heart.

"And you rejected him?"

"I did."

"He has the reputation of being a large hearted man."

"That's the trouble with him. He is too large hearted. He can love half a dozen women at the same time."

Domestic Finance.

Mrs. Knicker—Can you get money from your husband? Mrs. Bocker—No. By the time I've paid the cook for a good dinner before I ask him I'm just even.—Harper's Bazar.

Take care of the stomach and health will take care of itself. If people only realized the soundness of that statement the majority might live to good old age like Moses' the eye undimed the nature force unabated. It is in the stomach that the blood is made. It is from the stomach that nourishment is dispensed to nerve and muscle. If the stomach is weak it can't do its whole work for each part of the body. If it is disease the disease will taint the nourishment which is distributed, and so spread disease through out the body. It was the realization of the importants of the stomach as the very center of health and the common source of disease, which led Dr. Pierce to prepare his "Golden Medical Discovery." "Disease which originate in the stomach must be cured through the stomach." The soundness of this theory is proved every day by cures of diseased organs, heart, liver, lungs, blood,—by the use of the "Discovery" which is solely and singly a medicine for the blood and organs of digestion and nutrition. It is a temperance medicine containing no alcohol' whiskey or other intoxicant.

An Easter Picture of Highest Merit.

An Easter picture that fits the occasion is one of the timely features provided for the delectation of buyers of the Sunday North American for April 15. Nearly all of the articles and pictures in the paper for Easter Sunday breathe the Easter spirit, but the one that will appeal most strongly is a handsome lithogravure of a little girl surrounded by rabbits—the child's Easter animal.

To give to the artist a full and perfect expression of his work, the printers have done the picture in ten printings, getting into the composition every shading of color that can be produced by mechanical means. The result is a delicate, finished reproduction, even more attractive than the wonderfully faithful original.

The Gibson picture series will be continued on Sunday, April 22.

The circulation of the Sunday North American has increased over 30,000 copies in the last sixty days. Next Sunday will be larger than ever. See your news dealer and place your order now.

Cheerful Thoughts.

Think of your own faults and you will talk less about the faults of others.

It is a great mistake to do nothing because you can only do a little. Do what you can, especially to aid others Each kind act will give you renewed strength for the next charitable act.

You will find that the best defence against gossip is to fill your mind with higher and better things. To keep your brain and your hands busied with useful and ennobling work.

The people who win their way into the inmost recesses of other's hearts are not, you may find, usually the most brilliant and gifted, but those who have sympathy, patience, self-forgetfulness and that indefinable faculty of eliciting the better nature of others.

Don't tell any one your children's faults, even to their relatives. If you need advice get it privately. Do not tell that your children cannot be induced to read, for this is largely your own fault. Educate their tastes in reading by your own interests in books. You will find that, as children grow older, their tastes in literature will change for the better.

"Taking life through and through," said a thoughtful woman the other day, "the larger part of the sadness and headache it has known, has not come through its great sorrows, but through little needless hurts and unkindnesses, not so much through the orderings of Providence as through the mis-orderings of humanity. Oh, the days that are spoiled by smaller hurts! Spoiled, because some body has a foolish spite, a wicked mood, an unreasonable prejudice that must be gratified and have its way no matter whose rights, plans or hearts are hurt by it."

Rare Opportunity for Investment.

Large lot on Spring street running parallel with Armory building on Lamb street to Electric light building, adjoining, and including a tenement house for four families all rented. Entire property well adapted for manufacturing purposes, or tenement houses. Location also convenient to the new depot of the Central railroad of Pennsylvania. We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable. The dose is only one pill at bedtime.

CORRESPONDENCE!

Centre Hall

April 2nd and 3rd were very busy days in Centre Hall, owing to the many exchanges of homes that took place.

Ex commissioners Meyer and Goodhart are now snugly located in the new homes they bought this spring. Clayton Wagner from Tusseyville; William Feidler from Green Grove in Gregg township, and Harry Shirk from Boalsburg have become residents of our burg. The other movings were changes of ones who were residents of the place.

The Dramatic club of Millheim will give an entertainment in Grange Arcadia on the evening of the 14th inst.

The base ball team have donned their new uniforms.

Rev. B. K. M Sheeder of Aaronsburg; Ezra H Auman. W. S. Shelton and Jerome Gephart of Millheim; H. F. Rossman and Dr. H. S. Braucht of Spring Mills, and S E. Weber of Boalsburg, spent Monday evening in Centre Hall. Will Ruhl of Spring Mills was also a caller on last Monday evening.

In last week's paper you made a note of the finding of the decapitated body of John Sanders of Centre Hall lying along the tracks of the Huntingdon and Broad Top R. R, about six miles from the town of Huntingdon. Joseph Lutz of this place went out to identify the body and bring it home for burial. He arrived with it on Friday afternoon and the funeral was held on Saturday The services were conducted by Rev. Gress of the Reformed church. Mr. Sanders, who followed the occupation of sawyer on steam saw mills, was on his way to West Virginia to get work. It is supposed he was riding on a freight train and fell off, as his satchel was not found with the body. Mrs. Sanders' maiden name was Kate Dale, she being a niece of the Dale brothers Philip, Clement, Alfred, George and Christ. She is also a relative of the different Durst families. Mr. Sanders is survived by his wife and little daughter.

Rev. W. H. Schuyler and elder Joshua Potter left last Tuesday for Bellwood to attend the meeting of the Huntingdon Presbytery.

Milesburg.

John Jodon is now confined to his bed with an attack of pneumonia.

Frank Campbell of Tyrone Sundayed with his parents.

Harry Meyers of Bellwood Sundayed with his parents.

Wm. T. Fulton and Dr. S. M. Huff and wife made a business trip to Philadelphia.

McClellan Fulton of Tyrone made a flying visit to see his mother on Saturday last.

Rev. M. C. Piper and son Dr. Piper of St. Paul left on Saturday for New York to be present at the ordination Sunday of his son as a Methodist Minister.

Miss Della Shay is now convalescent after being confined to the house with a heavy cold settling through her system.

William Young left on Sunday for Fowler to work on a farm with Mr. Guyer where he worked last summer.

Mrs. E. A. Swartz gave a party recently in honor of her five year old daughter Mary E., refreshments were served at 5 p. m., every one present had a pleasant time.

Mr. David Reese of Charleroi was taken sick with heart trouble at 6 p. m. on Friday the 6th inst and was a corpse at 10 p. m. His body was brought here on Sunday morning train for burial. The funeral took place Monday morning, interment in the Advent cemetery.

The ladies aid society of the M. E. Church will hold an Easter social on Saturday evening April 14th in the Crider building corner of Mill and Market streets. Ice cream, cake, pie, and coffee with other refreshments will be for sale, also a lot of ready made aprons, the community at large are cordially invited to be present to help the good cause along.

Millheim.

John Smith of Spring Mills the furniture dealer was in town Wednesday on business.

M. Weller of Mifflinburg transacted business here recently.

G. W. Sheen of Phoenixville was in town one day last week.

W. A. Tobias transacted business at the County seat on Monday.

The Millheim Bank was kept very busy last Saturday and Monday attending to their many customers.

B. D. Tate of Bellefonte was in town Monday and Tuesday looking after the lines of the Penna Telephone Company.

W. E. Reitz of Sunbury was in town a few days ago.

John M. Reish has accepted a position as bartender at the Museer House.

F. O. Hosterman of Millheim was in Bellefonte Monday on business.

Isaac A. Shauver of the National transacted business in Snyder and Mifflin counties this week.

Some have already commenced to make garden where the ground is not too wet.

The snow has nearly all disappeared and in some places the roads are very muddy.

The granting of license at Coburn has been refused which is quite a disappointment to many in that town, and also to many others.

Shem Spigelmeyer of Mifflinburg is visiting his son Jerome for a few days.

—We will hold our annual Easter sale in the sample room Brockerhoff building with a full line of cut flowers and potted plants in best condition at lowest market prices. Sale commencing on the 12th and continuing 3 days.

The Human Animal.

In babyhood his mother called him a kitten.
When at college he was commonly called a calf.
After he left college he became among his friends a gay dog.
In business he was referred to as a sly fox.
In Wall street he was a bull.
In his love affairs he was a perfect tiger.
In society he was described as a lion.
(The neighbors called him a little monkey.)
(The girls usually termed him a puppy)
(But according to his enemies he was a beast.)
(His competitors labeled him a wolf in sheep's clothing.
(And just as frequently a bear.)
(Some said, however, a perfect donkey.)
(Varied occasionally by "that stupid ass.")

Information Wanted.

Should we not call a halt on every species of gambling? The act upon this subject passed by the Legislature in 1860 means that any owner or occupant of a house who permits games of chance to be played in his house or where money or other valuable things are the stake is guilty of a violation of the laws against gambling.

Does this not mean that those who play bridge, progressive euchre and other such chance games for prize money or any other valuable thing in their house or rooms are liable to be fined and sent to jail? I would also like to know whether the strict laws passed against cigarette selling applies to Centre county and if so why they are not carried out by the proper officials

STURDY FARMERS KEEP OFF ALL CATARRHAL ILLS BY TAKING PE-RU-NA.

Pe-ru-na Cures Catarrh Wherever Located.

Pe-ru-na a Necessity in the Home.

J. B. Alexander, Publisher of the "Fruit and Floral Guide, A Magazine of Horticulture," published in Hartford City, Ind., says of Peruna:

"I was afflicted with catarrh of the throat and head for over ten years. I was treated by many physicians, but grew worse until I was seldom able to go out in cold weather.

"About one year ago I was advised to try Peruna, which I did, and I am now entirely well of the catarrh.

"Peruna is a necessity in our home. With the first symptoms of a cold we use it, and are never afflicted with catarrh.

"I advise all who are afflicted with catarrh to try Peruna. There is certainly nothing equal to it as a catarrh medicine."—J. B. Alexander.

Pe-ru-na is a Systemic Remedy.

If Peruna will cure catarrh in one place, it will cure it in any other place, because it is a systemic remedy.

Pe-ru-na Always on Hand.

Mr. Fred Schnell, Lakeview, Erie Co., N. Y., writes:

"I had been a sufferer for more than thirty years with catarrh of the intestines. I had used a great deal of medicine to no avail, so I decided to try Peruna.

"I have now used thirteen bottles and can give you the joyful tidings that I have no more trouble. I always keep Peruna on hand."--Fred. Schnell.

The people generally are very much misinformed as to the nature of catarrh.

Catarrh is usually believed to be confined to the head, nose and throat. Latterly we sometimes hear of catarrh of the stomach and catarrh of the bladder. Seldom, if ever, do we hear of catarrh of any other organs.

It is not because these organs are not subject to catarrh, nor that catarrh of these organs is not a very common disease, but simply because it is not generally known that affections of these organs may be due to catarrh.

Had Catarrh Thirty Years.—Pe-ru-na Cured Him.

Mr. Gustav M. Schmidt, Spring Valley, Ill., writes:

"I had catarrh of the head and throat for over thirty years. It became worse every year.

"About three months ago I commenced to take Peruna and Manalin, and now I am entirely cured of that troublesome sickness. Your medicine is surely a blessing to mankind.

"You can truly say that you have not lived in vain, Doctor, and I thank you for the good you have done me. May you enjoy a long life to help suffering humanity."—Gustav M. Schmidt.

Dr. Hartman Makes Personal Use of Pe-ru-na.

In speaking of his own personal use of Peruna, Dr. Hartman says:

"For a number of years my professional duties have compelled me to be much on the road, traveling long distances by rail, night and day, exposed to all kinds of vicissitudes, sleeping and eating in different hotels continually, and through it all I have preserved myself from any derangement of the body resulting from catching cold.

"At the slightest evidence of a cold, a few doses of Peruna invariably checked it."

Pe-ru-na a Household Friend.

Mr. Henry Schroeder, Route 2, Napoleon, O., writes:

"I suffered for almost ten years with catarrh of the stomach and all doctoring was of no avail.

"I took nine bottles of Peruna and two of Manalin and am now entirely cured.

"I recommend the medicine to all who are afflicted with this disease. It is my household friend."--Henry Schroeder.

A Farmer's Talk to Farmers.

Before Dr. Hartman began the study of medicine he was a farmer boy. He was brought up on a farm in Southern Pennsylvania.

He belonged to that industrial, successful class of farmers known as the Pennsylvania Dutch, the best farmers in the world.

It was here that he early learned the lesson of pulling obnoxious things out by the roots.

Dr. Hartman's Method of Treating Catarrh.

Naturally, when he began the study of medicine his mind turned instinctively toward the removing of causes. He could not content himself with doctoring symptoms any more than his enterprising father could have contented himself by pulling off the tops of weeds to eradicate them from the soil.

The Doctor turned his attention early to the science of removing the cause of diseases, believing that obnoxious symptoms would disappear if the cause of the disease was removed.

In other words, Dr. Hartman applied the common sense of the practical farmer to medicine, and after much experimentation Peruna was compounded.

The sensible farmer does not think of cutting off the tops of weeds to kill them. He pulls them up by the roots.

Dr. Hartman Interested in Farming.

Notwithstanding Dr. Hartman's busy professional career, he still continues to be interested in farming. He is the owner and manager of one of the largest farms in the State of Ohio, with several thousand acres of the best tilled land in the Middle West, and with hundreds of the best blooded percheron horses ever imported or raised in this country.

Dr. Hartman relies upon Peruna entirely in case of sickness in his own family.

At Work on the Farm.—Praises Pe-ru-na.

Geo. H. Thompson, Raleigh, Miss., writes:

"I have been cured of catarrh by your medicines, Peruna and Manalin. I had been affected with catarrh of the stomach about all my life, and was taken bad every spring and summer.

"I used several kinds of patent medicines, but they did me no good. I then took a treatment under an M. D., which did me but little good. By this time I had got where I could eat nothing but a little soup. I had severe pains, had lost in weight and could not do anything.

"I began taking your medicines, Peruna and Manalin. I then weighed 126 pounds, but after taking 17 bottles of Peruna and one bottle of Manalin, I weighed 166 pounds.

"I am now at work on the farm and feel well all of the time. I eat all I want to and my friends say that I look better than ever before. I will ever praise Peruna for its healing power." Geo. H. Thompson.

Man-a-lin is a modern, up-to-date laxative, pleasant to take, mild in action and sure to overcome constipation. It is an efficient cathartic for adults and children take it readily. Full directions accompany each bottle.

Anthony Hope's New Romance.

Anthony Hope, the famous author, who wrote "The Prisoner of Zenda" and other stirring romances, has just completed a new romance, "Sophy of Kravonia, or The Woman of the Red Star." It is full of soul stirring interest and is declared by all critics to be better than "The Prisoner of Zenda," which made Hope famous. This wonderful story begins publication exclusively in "The Philadelphia Sunday Press," April 22nd. On this day "The Sunday Press" will also give away, absolutely free, a fine art supplement picture, size 14x21 inches, entitled "The Marqueraders," printed separately in six colors on heavy paper. Be sure and get "The Sunday Press" on April 22nd, and each Sunday thereafter, to read this great romance. Notify your newsdealer or carrier to reserve your paper, as the demand on this day will be enormous and late callers may be disappointed. Such great value in a Sunday newspaper is unprecedented and yet it's the great "Sunday Press" that always leads in giving the people the best of everything.

CURED TO STAY CURED.

How a Bellefonte Citizen Found Complete Freedom from Kidney Troubles

If you suffer from backache—
From urinary disorders—
From any disease of the kidneys.
Be cured to stay cured.
Doan's Kidney Pills make lasting cures.
Bellefonte people testify.
Here's one case of it:

Wm. E. Haines living at 133 W Beaver St., says "I have had no occasion to use any kidney medicine since 1896. It was at that time I was cured by Doan's Kidney Pills and I made a statement for publication recommending them. The cure has proved to be permanent and it gives me pleasure to once more endorse Doan's Kidney Pills. Before I used this preparation I had been suffering for six years with a lameness of the back and a dull lingering aching over the kidneys accompanied with severe pains in the head. My eyes pained me. Being on night work I had to have my rest during the day but when I was in this condition could not get any rest at all, and was, in fact unfit to work. Reading of the many cures made in Bellefonte by Doan's Kidney Pills I got a box at the Bush Block Drug Store. They banished the whole trouble, and during the past eight years I have had no return of it With this proof I am well able to recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cts. cents. Foster—Milburn Co., Buffalo, N. Y. sole agents for the United States.

The Pure Food Roll of Honor.

"Good Housekeeping," a well known household national magazine voluntarily made a thorough examination and test of None-Such Mince Meat, and placed it without reservation upon its roll of honor.

In the March number of Good Housekeeping, in the department of "Pure Food Assurance," we find

"None-Such Mince Meat, Merrill-Soule Co., Syracuse, a semi-moist condensed compound of beef, apples, spices, sugar, raisins, currants, boiled cider and salt, without other preservatives or adulterants, no artificial coloring, produced under conditions as near to sanitary perfections as possible."

This guarantee, which could not be bought at any price, ought to satisfy the most particular house-wife. The sale of one million packages a month seems to prove the statement to be true. Your grocer sells None-Such. Try it, and satisfy yourself. You are the one.

Sixty weeks for $1.75.

The new subscriber to The Youth's Companion for 1906 who at once sends the subscrition price $1.75, will receive free all the remaining issues of the paper for 1905. These issues will contain nearly 50 complete stories, besides the opening chapters of Grace S. Richmond's serial "The Churchills' Latch-String," a sequel to her story of "The Second Violin," which appeared in the early weeks of the year. Madame Sembrich will contribute an article on "Sovereigns I Have Sung To," and there will be three stories by May Roberts Clark under the title, "Tales of a Pawnee Hero."

These will give a foretaste of the good things in store for 1906, full illustrated Announcement of which will be sent to any address free with sample copies of the paper.

New subscribers will also receive a gift of The Companion's "Minutemen" Calendar for 1906, lithographed in twelve colors and gold.

RED MEN MEET IN JUNE

The Program Arranged for the June Meeting in Allentown.

BIG NUMBER TO ATTEND

There Will be a Parade and Other Interesting Things That go With Such Occasions.

NUMBER OF PRIZES TO BE AWARDED

The Allentown *Call* says that general arrangements for the great parade and review of the great council of Red Men of the state to be held in that city June 12 have been completed by the general committee and the following program has been outlined:

The sessions of the great council will be held in the Y. M C. A. hall, on Centre square, beginning Tuesday morning, June 12, at 9 o'clock.

The parade and review will take place on Wednesday, June 13 in the afternoon, starting promptly at 1.30 o'clock, the line of parade will be short and almost entirely over paved streets.

In order that the tribes may present the best possible appearance in the line of parade and prevent the public to crowd into the streets, it is ordered that all tribes participating must march in columns of at least four abreast, whether mounted or on foot.

On Wednesday evening, June 13, there will be held a public reception on Centre square, where it is expected addresses will be made by the Great Incohonee, Great Senior Sagamore and Great Junior Sagamore of the great council of the United States; also the Great Sachem and the Great Chief of Records of the great council of Pennsylvania, and a band concert before and after the speaking.

The committee has concluded to change the prizes to be awarded, to wit:

$100 will be given to the largest number of costumed men in line from any one tribe.

$25 to the tribe coming the greatest distance, not less than 16 costumed men in line.

$25 to the tribe having the most appropriate and finest float in the parade.

No tribe to carry off more than one prize.

The committee has already received sufficient information and encouraging reports from a large number of tribes, which gives assurance that the parade will be the largest ever held in the reservation of Pennsylvania.

Col. C. T. O'Neill has been named grand marshal of the parade and will be assisted by four aids from each tribe in that city. At a meeting of Lecha Wonk these braves were named for that body: B. Frank Mohr, Al Griesemer, Dr. Charles E. Guth and George F Bogh.

A Suicide for Love.

West Chester, Pa., April 5.—Grace Curtis, aged 20 years, daughter of Absalom Curtis, of New London, committed suicide by swallowing a large quantity of carbolic acid in her bedroom. She died in terrible agony a short time later. It is said that an unfortunate love affair prompted the deed.

Miss Curtis, owing to her beauty, was a social favorite, and it is alleged that she was receiving the attentions of an only son of a wealthy farmer who lives near the Curtis home. Some days ago the young man left the neighborhood, and she began to mourn for her absent lover. It has since developed that there are two other young ladies of the neighborhood who are mourning his absence.

The most rational remedy for Coughs and Colds is Kennedy's Laxative Honey and Tar. It acts on the bowls as a mild cathartic—expels all cold from the system. Cut all phlegm out of the throat, relieves coughs, cold, croup, whooping cough, ect- An ideal remedy for children—ebually good for adult. Sold by Greens parmacy.

Girls, Don't Skip Rope to Excess.

With the advent of spring weather comes the fascinating sport of rope jumping among the children. Too violent indulgence in this exercise results in illness and death. Despite the fact that the dangers of rope-jumping are known many children over-indulge in the sport. Those who skip rope to excess are usually the ones not equal to the strain of the physical exertion.

SUCCESSFUL ENTERTAINMENT.

Bellefonte's Amateurs Play "College Chums" to Crowded House.

On Thursday evening the elite of Bellefonte crowded the Petrikin Hall to witness the "College Chums" produced by our be t home talent. From the time the curtain rolled back, until the finishing of the entertainment, the audience were kept in a continuous roar of laughter, as the participants took their different parts with much credit to themselves and their instructors Messrs. Vance and Bingham.

The first on the program was the laughable playlet entitled "A Jack for Every Jill," in which the parts were taken by eight boys and girls. Not a word was shirked and everyone of the little actors and actresses came up to the requirements so well, that it is safe to say that a better dialogue played by children was never placed on any stage in Bellefonte. The "Happy Hooligan specialty, which followed was one of the most laughable acts in the play and brought down the house. The four boys that participated in this, made a decided hit and the little policeman had the "Comic page cop" browned to a turn.

The next was the one act pastoral drama entitled "An Old Man's Story," in which Messrs. Vance and Bingham had the leading parts, and was very impressive. "The Novel Parasol Dance" in which ten of Bellefonte's prettiest girls partook, looked very affective under the ever changing calcium and the illustrated songs, sung by local talent got their full share of applause.

The one act play "College Chums" which was last on the program just suited the audience to a T, and was likewise appreciated.

The entertainment was given under the auspices of the W. C. T. U., which should be complimented in bringing such fine actors as Messrs. Vance and Bingham here.

Acquires Forest Land.

The purchase by the state of three extensive tracts of land in Huntingdon and Mifflin counties has added 17 000 acres to the forest reservations. The land was purchased from the Logan Iron and Steel company, of Burnham, and the price paid was $56,535. The land comprises the tracts formerly owned by the Greenwood Furnace company in Jackson township, Huntingdon county, and the Edwin Furnace company, in the same township, and in Wayne township, Mifflin county. Included in the former is nearly all of Stone Mountain, the apex of whose ridge is the dividing line between the two counties. It is contiguous to and will now be a part of the large state forest reserves, extending from Barre almost to the Susquehanna river. Charcoal furnaces are located on the newly acquired properties, which had large timber lane holdings and adjoined the state reservations, and it was partly due to this that the authorities concluded to redeem the land. A 72 page deed conveying the three tracts of land has been recorded in Huntingdon.

A Sensible Ordinance

Wilkesbarre has passed a drastic ordinance regulating public dances. Hereafter such affairs must procure a license, and no girls under 18 will be permitted to attend unless accompanied by parent or guardian. When a license is issued for a dance the mayor details a policeman to see that the provisions of the ordinance are respected. The regulation is a very proper one. It works no hardships or inconvenience, except where protection to young people is necessary. In this connection it may not be out of place to observe that there would be fewer public dances of the demoralizing sort if there was less opposition to the pleasant and innocent recreation in the home.

Spelling Reform.

"In this reform," says Andrew Carnegie of spelling reform, his latest fad, "the more progressive American has led and will continue to lead. We put America's plow against Britain's plough, honor against honour, program against programme, and music, until recently, against musick; we sent a telegraph in early days. now it is telegram and many other reforms our land is to be credited with, which, mark you, Britain slowly adopts, because they prove themselves improvements. This effort is not a fad; it is no attempt at a phonetic system; it is only an effort to systematize and hasten a process that has been always at work."

Incentive to Tree Planting.

To encourage tree planting in Pennsylvania on Arbor day the council of the Pennsylvania Forestry association will award prizes aggregating $106 for trees planted on April 6 and April 20 the days appointed by the governor as spring Arbor days. Anybody may enter the contest for these prizes, which will be distributed in the fall, after the trees have been inspected as to their condition. Individuals, associations or schools may participate in the contest, the requirements being a properly authenticated report giving the number and description of trees planted, together with the location, etc.

All reports of tree planting entered for the contest will be filed and committees appointed to decide upon the merits and distribute the awards. The number of contestants, the record of their work, and the advantage which is believed these efforts will be to the state of Pennsylvania and the cause of forestry, will determine the distribution of the fund. The contestants will file the reports with the Pennsylvania Forestry association, 1012 Walnut street, prior to May 1, 1906.

Albert Murdock Wanted.

Attorneys are trying to find traces of Amiel, Emille or Albert Murdock, who was born either in Plymouth or in Carver, Mass., February 11, 1822. If alive he is entitled to a third of a large estate, his share being about $200 000. The Murdock that is wanted is a son of Barlett and Hannah Murdock, and when a lad is supposed to have gone to Warsham, where he was employed in a foundry. He then went to New York and later traces of him were found in Baltimore. It is thought he left Baltimore after a few years' residence and went to Indiana. Traces were found of him in Danville, Pa From Danville the lawyers have traced him back to Brooklyn, and later, as Emille or Albert Murdock, enlisted in New York city, September 27, 1865. Records have been found of his discharge dated Oct. 2, 1871. He was married in 1861 to Miss Henry of Danville, Pa., and was divorced soon after. Mrs. Murdock went to live in Chicago and has not since seen him.

FIFTY CENTS

IN some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

THE LIVER QUARANTINE

"TAKING HIS MEALS OUT."

¶Hurried eating has ruined many a man's stomach. The digestion-destroying process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health.

¶A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them full play, inviting some serious illness.

¶In families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and blader affections. No well-regulated family should be without this standard remedy.

He went down to look over the Coal and Coke R. R., over which Thad Longwell has lately been made train dispatcher, and if he likes it he will accept a position as an engineer. While we regret to lose Billy very much indeed we cannot but congratulate him on the change, which is equivalent to a very nice promotion. If he decides to remain in Belington he will probably move his family to that place some time during the summer.

—Word was received here on Wednesday of the strange and untimely death of Miss Retta Barber, in Hazleton, Monday morning. Miss Barber was a cousin of Dr. R. G. H. Hayes and has frequently visited at the Hayes home here as well as the family of F. Potts Green. They have been residents of Mifflinburg for many years and only last week moved to Hazleton. Sunday evening Miss Barber accompanied her father and sister to church and after going home complained of a sharp pain in her arm. But by the time she went to bed the pain had almost disappeared and she thought no more about it. Monday morning when the family got up Miss Barber said she did not feel well and would lie in bed a little longer. After breakfast her sister went to see how she was and found her cold in death. The remains were taken to Mifflinburg where the funeral was held on Wednesday.

—This story, for generations a favorite with country editors, is still able to be around. A party down East was blessed with twins—both boys. He christened them Peter and Repeater. Another blessing of a like nature occurred about a year after—this time both girls—and the happy father called them Kate and Duplicate. But the latest birth of twins was a puzzler for some time, as one was a boy and one a girl. However, the difficulty has been gotten over by calling the boy Max and the girl Climax.

Y. M. C. A. Notes.

The bowling alleys was the scene of another contest on Thursday evening last, when a team known as the "Winners," suffered defeat at the hands of the "Star" in a three game event. The members who composed the "Stars" are as follows: Cowher, Armsby, Barlett, E. Lyon and Morrison. The "Winners" (in name only) contained Kirk, Sailor, M. Lyon, Golden and Showers. The total score for the stares was 1599 pins; for the winners 1535.

Physical Director L. C. Godfrey is planning to spend Easter with his parents in Buffalo.

Jacob Gross, the tailor, has donated a piece of Linoleum for the Y. M. C. A., office. We need many other things.

The second first-grade apparatus test was held in the Y. M. C. A gymnasium April 4, 1906. A total of eighty movements were given on four pieces of apparatus and sixteen men participated. Messrs. Lingle, Lane, Bartholomew, Otto and Barnes stood the test, each man having secured a score of 50 points out of a possible 80.

The Y. M. C. A. hopes to have a fine base ball team in the field this year and would like to co-operate with other teams in the matter of organizing a base ball league.

Geist—Lucas.

Mr. John Geist and Miss Nora B. Lucas, both of Warriorsmark, were the contracting parties of a pretty wedding which was solemnized at the residence of Mr. and Mrs. Samuel Lucas, at Warriorsmark, last Thursday evening. The The officiating clergyman was Rev. R. Q. Whitely, of Warriorsmark, and the ceremony was witnessed by a number of relatives and friends. A reception followed the tying of the nuptial knot and on Friday evening a similar reception was tendered the happy couple at the groom's home. Mr. Geist is a contractor by occupation while the bride is one of the most popular young ladies of the town, and has many friends in Bellefonte and throughout Centre county who will wish for her a long, happy and prosperous wedded life. They leave Thursday for Chicago where they will make their future home.

What to Read.

When you have the "blues" and can see no silver lining to the dark clouds that are constantly above you, read the twenty-seventh Psalm.

When your pocket-book is as empty as an editor's, read the thirty-seventh Psalm.

When your neighbors are unkind to you and even those near and dear to you slight you, read the fifteenth chapter of John.

When you are discouraged about your work and nothing seems to go right, read the 126th Psalm.

When you are all out of sorts and hardly know what the matter is, read the twelfth chapter of Hebrews.

When you are losing confidence in mankind, read the 13th chapter of 1 Corinthians.

Death of David B. Reese.

This well known and highly esteemed veteran of the Civil War passed from earthly scenes at Charleroi near Pittsburg, April 6 h, aged 81 years, 6 months, and 19 days. Nearly his whole life was spent in Centre county. He resided for many years at Milesburg, from whence he moved away about four years ago. He was a member of Company G. 200th Regiment Penna. Volunteers and served his country faithfully. Early in life he united with the Methodist Episcopal church and died in the faith of Christ in whom he trusted. The body was brought to Milesburg where services conducted by Rev. A. C. Lathrop were held at the residence of Joseph Sellers on Monday morning at 10 o'clock. These services were well attended by relatives and friends. He is survived by his wife and the following children: Mrs. Annie Stevenson, Philadelphia; Misses Josephine and Sarah Reese of Charleroi; Mrs. Joseph Sellers and Mrs. Andrew Hugg, of Milesburg. In addition to these we note that his grandson Mr. W. H. Reese and wife of Charleroi were in attendance at the funeral. Interment was made in Advent cemetery.
